

XRPL Validator — Daily Engineering Report • 2026-03-30

Compiled retrospectively on 2026-09-23 from the git history. Scope: XRPL work only — the git history of [xrpl-validator](#) and the XRPL Rust SDK, the XRP Ledger itself (amendments) and XRPL research.

Summary

- **1 commit** (xrpl-validator 1)

Engineering changes

- **fix: sign validations with ledger_hash, not account_hash** (5db5acf , xrpl-validator) Was sending account_hash (state tree root) in validations instead of ledger_hash (full header hash). Network saw 0% agreement because hashes didn't match any known ledger. Now signs with the correct ledger_hash while independently verifying via account_hash.
